

How to make a **HEALTHY SNACK**

Whether or not you have diabetes, you probably like having a snack now and then. The goal is to choose healthy snacks. The snacks listed here may cause a small increase in blood sugar, but are *not* to be used to treat a low blood sugar problem.

To build your own snack, choose one (1) carbohydrate food and one (1) protein or healthy-fat food from each box.

Measures:
oz. = ounce
tsp. = teaspoon
tbsp. = tablespoon
